## ABOUT US

Paulina & Bartek

We are modern Hippies  
we do what we love, we are free  
and true to our life values.

We've been building a life together  
for 20 years. For 4 years, we've been  
creating  
REC.ON brand – upcycling design.

## VALUES

We've been creating our House &  
Guesthouse in SLOW spirit – the  
spirit of ecological consciousness,  
mindfulness, good energy and,  
obviously, siesta

## HOUSE

Our house is located in the middle of nature, in the valley of Sierra de María-Los Vélez mountain range, 3 km from a charming, 18th century Andalusian town, Velez-Rubio.

Surrounded by pines and aromatic plants, it is an ideal place to enjoy nature, sky, sun and clean air.

Our environment is also a unique place to observe the life of Andalusian condors and vultures.

# HOUSE

Our house has its upcycling history

An original, Andalusian country house stood there for more than 100 years.

In 2010, it was rebuilt in a modern way on the basis of remaining original foundations.

Its natural architecture, highlighting the charm of an old, rustic farm, was recreated.
